

Microsoft at SOSP 2021

aka.ms/SOSP2021

Microsoft Research

Where leading scientists and engineers tackle complex problems to improve lives.

Microsoft Research is where leading scientists and engineers have the freedom and support to propel discovery and innovation. Here, they pursue and publish curiosity-driven research in a range of scientific and technical disciplines that can be translated into products. With access to vast computing power, global multi-disciplinary teams tackle complex problems that drive breakthrough technologies and improve lives.

Careers

Imagine having the freedom and resources to pursue and publish curiosity-driven research that tackles complex problems to improve lives.

aka.ms/msrcareers

Events

Connect with our researchers at conferences and Microsoft Research events around the world.

aka.ms/msrevent

Microsoft Research Blog

Read in-depth technical and notable articles from our researchers, scientists, and engineers.

aka.ms/msrblog

Microsoft Research Podcast

Listen in on conversations that bring you closer to the cutting-edge of technology research and the scientists behind it. aka.ms/msrpod

Programs

Further your research with fellowships, grants, and opportunities.

Research at Microsoft

Collaborating globally with researchers, scientists, and industry leaders.

MSR Labs
Long term
basic research

MSR NExT
New experiences
and technologies

Across Microsoft
Researcher & Scientists
working in product, technology
and business groups

Research Lab Locations

Curiosity-driven research

Envision, create, prototype,
solve, lead on questions,
challenges, and possibilities

Deployment-driven research

Short-term, immediate,
tangible impact to products
and business

"Curiosity-driven research and
commitment to basic research
not only is something that
has made Microsoft's progress
or Microsoft's own existence
possible, but it's that broader
impact in the world around us."

Satya Nadella

Microsoft Research areas support a multi disciplinary approach

 Algorithms	 Artificial Intelligence and Machine Learning	 Audio and Acoustics
 Ecology and Environment	 Economics	 Graphics and Multimedia
 Human Language Technologies	 Mathematics	 Medical, Health and Genomics
 Search and Information Retrieval	 Security, Privacy and Cryptography	 Social Sciences
 Systems and Networking	 Technology and Emerging Markets	 Computer Vision
 Programming Languages and Software Engineering	 Quantum Computing	 Data management, analysis and visualization
 Hardware and Devices	 Human-computer interaction	

The Microsoft Research blog

provides in-depth views and perspectives from our researchers, scientists and engineers, plus information about noteworthy events and conferences, scholarships, and fellowships designed for academic and scientific communities.

aka.ms.com/msrblog

The Microsoft Research podcast

An ongoing series of conversations bringing you right up to the cutting edge of Microsoft Research.

aka.ms.com/msrpod

And available on podcasting apps

Join us!

Microsoft Research Intern Program

World-class researchers

Work with top researchers and innovative research teams.

Networking opportunities

Build connections with researchers and other people across the company.

Awesome benefits

You'll get a competitive salary, housing, medical, and more.

Amazing locations

The Pacific Northwest is amazing, but if that's not your thing, we host internships around the world.

Impactful projects

Work on projects that will impact the field of computer science – and the world.
